

# Cylinder boring-resurfacing machine

This machine includes both main recoditioning operations of light and heavy vehicles cylinder blocks: boring and resurfacing.

Despite its compact dimensions, the ACF200 ensures considerable work capacities, thanks to the wide longitudinal and transversal table feed and the vertical feed of the head.

The excellent qualities of precisiong and accurate finishing are the result of a combination of a well tested mechanical structure and innovative technical solutions, which improve the performance of the machine.

Consult the brochure, watch the video or contact us for any other inquiry.

#### DIFFERENCES BETWEEN SPINDLES KIND B AND C

Browse other cylinder boring machines.

Images may show the product equipped with optional accessories

## Standard equipment

Adjustable spindle speed with digital indicator
Adjustable boring bar feed
Adjustable table feed (only model ACF)
1/2" CBN or PCD milling plate dia. 350 mm
Tool setting dial indicator with magnetic base
Depth of boring device with dial indicator
Precision centering device with dial gauge
Adjustable control stop
PV0160 Pair of parallel supports
Wrench set
Instruction manual

## **Specifications**

Boring range: 30÷170 mm

Max head vertical travel: 670 mm

Min-Max distance from head to table:

370÷1020 mm

Distance between spindle C/L and column: 290

mm

Table surface: 1340x370 mm

Max table longitudinal travel: 1200 mm Max table transverse travel: 200 mm Adjustable spindle rotation speed:

50÷700 rpm

Adjustable boring bar feed: 0÷175

mm/min.

Adjustable table feed: 0÷460 mm/min.

Spindle motor power: 1.5 kW Rapid feed motor power: 0.37 kW Table feed motor power: 0.55 kW

Dimensions (LxWxH): 1860x1150x2170 mm

Weight: 1380 Kg

#### **Accessories**

PV1516

PV1516 60° - 90° V-block blueprinting mounting fixture

PV0025

PV0025 Pair of fast clamping column

PV0007

PV0007 Pair of parallel supports H=49mm

PV0160

PV0160 Pair of parallel supports

3/8" CBN/PCD insert tool holder

UT1355

1/2" CBN Insert for cast iron

UT1356

1/2" PCD Insert for aluminium

B03560

Ø 35÷60 mm L = 330 mm boring kit with dial gauge adjustment

B06085

Ø 60÷85 mm L = 320 mm boring kit with dial gauge adjustment

## C03560

 $\emptyset$  35÷60 mm L = 330 mm boring kit with pre-setting system

## C06085

 $\emptyset$  60÷85 mm L = 320 mm boring kit with pre-setting system

# C85170

Ø 85÷170 mm L= 360 mm boring kit with pre-setting system

## B85170

 $\emptyset$  85÷170 mm L = 360 mm boring kit dial gauge adjustment

# PF0350

1/2" CBN or PCD milling plate dia. 350 mm (available only for ACF)

# UT1330

1/2"CBN/PCD insert tool holder

3/8" CBN Insert for cast iron

3/8" PCD Insert for aluminium

# SSR200

Spindle storage rack

#### **PVB015**

V-block adjustable universal fixture

## APC040

CAT40 taper spindle for drilling

## ACF500

Tool sharpening assembly with support with diamond wheel ACF550
